## U.S. Paratroopers Land Behind Red Lines

### U.N. Forces In Strong Advance North Of Seoul

Double Thrust North Of Seoul Produces Spectacular Advance

By LEE FERRERO  
(U. N. S. War Correspondent)

TOKYO, March 24.—(Saturday)—A huge American armored column linked up with U.S. paratroopers dropped behind Red lines 20 miles northwest of Seoul Friday, while another task force slammed through the key hub of Uijongbu, 13 miles north of the Korean capital.

In central Korea a third tank force, coordinating its drive with the offensive above Seoul, smashed to a point above Chunchon only 2 1/4 miles from the 38th Parallel.

**INSIDE MUNSAN WITH PARATROOPS**, March 23.—(INS)—U.S. paratroopers boldly jumped behind Communist lines today and swarmed it out only for a few brief minutes before they learned the enemy had panicked and fled.

They landed right in the midst of the Second Regiment of the Nineteenth North Korean Communist Division.

But the 300 Communists in the nearby rice paddies and on the ridges were so demoralized by the thousands of men pouring from the skies that they did not put up a fight.

International News Service War Correspondent Cecil Brownlow reported from Chunchon that tanks delivering the "down the middle" (Continued On Page Thirteen)

**PA NEWS & OBSERVES**

Local state highway offices along with numerous other state and federal offices about the city and county were vacationing today due to Good Friday being a legal holiday. Parking meters downtown were receiving numerous coins although the meters were not in effect due to the holiday.

Present siege of flu and colds about the district may curtail somewhat the Easter attendances in local churches. If the day's weather is not up to par. Some meetings of local groups have been cancelled due to the prevalence of sickness which has gripped the local area.

City street department employees were noted on the job early today cleaning up the winter's accumulation of ashes from local streets. They were taking special pains in front of numerous local churches in order to have the streets clean for over the Easter week end. The work will alleviate the dust situation which has been created due to the dry ashes blowing about.

Fine work on the repairing of the telephone lines in the Enon Valley district is under way, following the freak snow storm of nearly two weeks ago which disrupted service drastically in that section. Service is being restored to patrons as soon as possible, it is learned.

Faithful church attenders will have to set their alarm a little bit earlier this Sunday morning, if they expect to be on time for the Easter Sun Rise services planned locally. Some services will start at 5 a.m. while the latest will get under way at 7 a.m.

**Judge Lamoree Speaker**  
Judge John G. Lamoree made the ground breaking address. Still showing the effects of a recent illness he nevertheless braved the biting winds to deliver an address beautifully in keeping with the occasion.

"Our forefathers had the foresight and vision to establish a hospital many years ago," said he. "That was the old Shenango Valley hospital and it served the purpose of its day."

"But the community grew and the hospital needs increased. Then came a great man, the late David Allen Jameson, a great humanitarian who believed his home city should have a modern hospital. Out of his material possessions he withdrew sufficient to erect this fine hospital, and it has stood as (Continued on Page Two)

### New York Mayor Hunting For Mobster Associates

NEW YORK, March 23.—(INS)—Mayor Vincent Impellitteri went on a hunt today for New York officeholders who have been palsied with racketeers.

The mayor, acting as a result of disclosures in the New York hearings of the senate crime investigating committee, said he will be guided by the principle that association with mobsters is sufficient to disqualify a man for office.

The mayor said his crackdown will be given further direction by a study of the Kefauver committee testimony now being conducted by the city corporation counsel.

### One Mile Link Outlet Planned For Turnpike

Pennsylvania And Ohio Officials In Agreement On Plan

PITTSBURGH, March 23.—(INS)—Pennsylvania and Ohio officials have agreed to establish a one-mile link which will keep Pennsylvania's turnpike from ending in an Ohio cow pasture.

At a meeting in Pittsburgh yesterday, representatives of the two states reached agreement on a plan to feed traffic from the toll road to Ohio Route 90, a mile south of Petersburg, O.

Petersburg is across the line from the point at which the western extension of the Keystone State's turnpike is to end. The segment of the super highway now is under construction and is to be completed about November 1.

Under the plan, Pennsylvania will improve a one-mile strip of township road east of Petersburg, Ohio will construct a 650-foot highway connecting this feeder with Route 90, which will carry traffic through to Route 224, a through highway.

The set-up will last one year. By that time, Ohio expects to have the first leg of its turnpike completed, connecting with Ohio Route 7.

### Propose 52 TV Channels For Pennsylvania

One Channel Would Be Allocated For New Castle Station

WASHINGTON, March 23.—(INS)—Pennsylvania will receive at least 52 television broadcast channels under allocations proposed today by the Federal Communications Commission.

Moving to partially lift its 30-month-old "freeze" on TV-station construction, the FCC has proposed opening up channels for television broadcasting in an unused portion of the spectrum known as ultra-high frequencies.

The FCC said this is expected to make room for more than 2,500 TV-stations in contrast to the present 109 outlets operating in very high frequencies now.

Minority Leader Says Proposed Income Tax Will Be Opposed

HARRISBURG, March 23.—(INS)—The 20-member Democratic bloc in the Senate was lined up today by Minority Leader John H. Dent against enactment of the one-half of one per cent income levy proposed by Gov. John S. Fine in his 1951-53 tax program.

Dent said he will analyze the budget and tax programs defined by Fine when the legislature convenes Monday.

The income tax proposed by Fine would yield about \$119,000,000 in the biennium opening June 1 while the jump from four to five per cent in the corporate net income levy would raise the yield of new revenue to approximately \$163,000,000.

A total budget of more than \$1,200,000,000 has been recommended by the governor to the Republican-dominated legislature.

Dent said he would lump the tax and budget programs together when he explains the minority's opposition.

### Giant U.S. Air Force Plane Long Overdue

Plane Was En Route From Newfoundland To Great Britain

By MILTON KAPLAN  
(U. N. S. Staff Correspondent)

LONDON, March 23.—A giant U.S. Air Force Globemaster en route to Britain from Newfoundland with 53 men including a general reported aboard was missing today and feared down in the Atlantic some 800 miles off.

An air force spokesman said that 53 men were known to have been aboard the plane, including Brig. Gen. Paul T. Cullen, deputy commander of the second U. S. air force, whose headquarters are at Barksdale airport, Shreveport, La.

#### Due In England

The transport was due at Mildenhall, Eng., at 5:20 a. m. (12:20 a. m. EST) from Gander, Nfld.

The Globemaster was last heard from at 12:47 a. m. British time (7:47 p. m. EST Thursday).

Because of the length of time the craft was overdue, its fuel supply was believed long since exhausted.

Indications were that the four-engine plane may have gone down in the sea about 800 miles west of Ireland. On its last routine call to the U. S. air base at Prestwick, Scotland, the pilot reported no trouble.

**Fails To Make Contact**  
A British Overseas Airways stratoscruiser passed the Globemaster's last reported position during the afternoon and made repeated efforts to contact the missing plane, without success.

Royal Air Force Lancasters searching the coast from Cornwall, Eng., to Shannon airport in Ireland with parachute-equipped lifeboats found no trace of the plane. Visibility in the search area was described as good. There was a 25-knot wind and the sea was reported moderate to rough.

Crane that he had made Moran, a friend of former mayor William O'Dwyer, payments totaling \$55,000 for "good will". Moran had denied that he received any money from Crane, president of the United Firemen's Association.

Crane also testified that he had given O'Dwyer \$10,000, presumably as a contribution for his reelection campaign. O'Dwyer, now ambassador to Mexico, denied receiving any money from Crane.

**Study Tax Returns**

a tribute to his humanitarianism and philanthropy since it was opened.

"Some years ago the officers and directors of the hospital realized that with the passing years the need for modernization and enlargement was growing. The call went out for funds with which to add to this lighthouse of mercy and to the everlasting glory of the people of New Castle and Lawrence county they responded freely and generously."

"Today we see the fruits of the labors of our people. Today we see the beginning of this fine addition to the hospital and for this and the many other mercies we have received our thanks go out to Almighty God."

## Rowland In Charge

Chairman Rowland was in charge of the program and in opening the exercises spoke briefly. "This is a happy day for all of us," said he. "We have all looked forward to the day when ground would be broken for this addition to the Jameson Memorial hospital and today we reach that happy time."

"We have present today many city and county officials. To all of them I wish to express the gratitude of the board of directors for their never failing cooperation in this worthy cause. Also there are present representatives of organized labor. They also have been helpful and cooperative and to them, also, we say thanks."

"The physicians and surgeons of the city and county have had considerable to do with the plans for the new addition, and we have found them at all times ready and willing to cooperate. To the skill of these gentlemen will soon be added the most modern hospital facilities possible and this combination will mean much to all of us."

Mr. Rowland then presented Rev. Ralph E. Hovencamp, rector of Trinity Episcopal church who pronounced the invocation. Dr. G. S. Bennett, pastor of First Christian church pronounced the benediction.

## National Anthem

Opening the program recorded music from the hospital played the National Anthem while the crowd stood at attention. Prior to the ground-breaking exercises a luncheon was held by the board of directors in the Nurses Home at the hospital.

The grateful of earth that Roger Rowland tossed out Thursday will be followed by the giant excavator equipment, and this by the masons, the carpenters, the bricklayers, the plumbers and electricians and the other skilled craftsmen who in the next 12 months will fashion cement and stone and steel into an addition to the hospital. When it is completed and occupied this area will have a hospital which will rank with the best in the nation.

The new wing will be built on the Garfield avenue side and will make an "H" out of the present "T" shape of the building. The general contract is in the hands of Matthew Lelvo Sons, Inc., a New Castle contracting firm. The cost will probably amount to slightly over a million dollars when the wing is built, furnished and equipped.

him when Daugherty failed to stop on command. Woolway was arrested at his business place, police report.

According to the arresting officers, Sergeant Shields and Lieutenant Rigby, Daugherty confessed to have stolen two portable radios, a food mixer and a waffle baker from Bolotin's Furniture Store early March 14. He also allegedly admitted attempting to break into Robin's store and also Kirk-Hutton's store the same morning. The stolen articles, police report, were recovered at Woolway's place.

Mrs. Vignovich told police, they say, she saw Daugherty take a letter from a mail box in the Fisher block Thursday afternoon. Later the letter was recovered. It had been mailed to Mrs. William E. Thomas, a former Fisher block resident, now of Pearson street.

Mrs. Vignovich followed Daugherty until he crossed Moravia street and entered railroad property. At 4:40 p.m. she telephoned police. Cruiser Policemen Kovach and Rozzi talked to Mrs. Vignovich, later saw Daugherty on the tracks and Rozzi pursued him on foot, they reported to headquarters.

Questioning at police headquarters allegedly developed that he had taken the articles stolen from Bolotin's to Woolway's Used Furniture Exchange, according to police. He went there yesterday, took back one of the radios and when he was captured it was recovered after it had been dropped in his flight, police report.

Because he allegedly took a letter sent through U.S. mail, Daugherty may face a federal charge.

According to city detectives who quizzed Daugherty this morning, he admitted having attempted to enter several other places on March 14 morning and allegedly confessed to stealing a truck from Fombelle Coal company and leaving it in Engine House alley.

Postal inspectors were also quizzing him about the alleged theft of the letter from a mail box at 1219 South Jefferson street.

## UMSTEAD-HILKE EXCHANGE OF VOWS

A quiet but impressive service performed before the families and a few friends in the Second United Presbyterian church on Tuesday, March 20, united in marriage Miss Edith Umstead and Wilber Hilke.

The ceremony was performed at 7:30 o'clock in the evening, with Dr. J. Calvin Rose reading the double ring ceremony.

The attractive bride was attired in a powder blue street length dress with gray accessories. She wore a shoulder corsage of red rosebuds as a pretty accent to her ensemble.

Mrs. Donald Pitzer attended her sister as matron of honor, wearing a solid blue street length dress with brown accessories. Her shoulder corsage was of pink rosebuds. Donald Pitzer served the groom as best man.

The church organist, Mrs. Jacob Jordan, played lovely nuptial music during the ceremony.

A reception was held later in the evening at the home of the groom's parents. The bride's table was centered with a three-tiered wedding cake topped with a miniature bride and groom. Lunch was served by Mrs. Hilke, assisted by Pat and Edrie Fee and the groom's sisters, Lois and Ruth Hilke.

The table was beautifully decorated with appointments appropriate to the Easter season, a green and white color scheme being used. In the center of the table a green Easter bonnet contained vari-colored eggs and chicks, and white candles on either side enhanced the setting.

At each place-setting was a white rabbit holding a green napkin. After a short business meeting with the president, Mrs. Jess Shaffer, in charge, the program got underway. ## LOIS BEARD WEDS JOHN MORROW JR.

Fan-shaped bouquets of white flowers artistically arranged with ferns, in the glow from cathedral tapers, lent charm to the Third United Presbyterian church Friday evening, March 16, when Miss Lois Beard, daughter of Mr. and Mrs. Fred A. Beard, East Washington street, and John C. Morrow, Jr., son of Mr. and Mrs. John C. Morrow, Sr., R. D. 4, exchanged nuptial vows.

Dr. J. Paul Graham read the impressive double ring service at 7:30 o'clock, with a host of friends and relatives in attendance.

Gowned in white lace over satin and escorted to the altar by her father, the young bride was lovely. The fitted lace bodice featured a tiny Peter Pan collar and buttons to the waistline. The very full skirt was overlaid with the same exquisite lace and she wore a fingertip veil of filmy illusion. A colonial bouquet of white roses, carnations and snapdragons centered with a gardenia completed the picture.

Gracing the bridal procession as maid of honor was Miss Doris Ringer, attired in a gown of pale green marquisette and lace. It was styled with a fitted bodice, high round neckline and full gathered skirt. A small hat of matching color and material was a pretty accent, and she carried a colonial bouquet of yellow roses, snapdragons and carnations.

Tiny Judy Houston, niece of the groom, was flower girl, wearing yellow organdy and carrying a small colonial bouquet of yellow and white roses and snapdragons. John Wallas served the groom as best man, with ushers including Fred Beard, brother of the bride, and Albert Kelly.

Miss Kay Newberry, organist, accompanied Earl Hammond as he sang "Because". "Oh, Promise Me" and "The Lord's Prayer".

Immediately following the ceremony 150 guests were entertained at a reception in the church basement. A tiered wedding cake graced the attractively appointed bride's table.

Mr. and Mrs. Morrow departed for a honeymoon to Washington, D. C., and other points of interest and will reside at 302 Boyles avenue upon their return.

## TWO BATTLES

For several years now the Red leaders of Moscow have been predicting that the United States would be ruined by the explosion of our own economic system.

They have eagerly been looking forward to the next depression, which taken with our great debt and our other obligations, according to their hope and belief, would render the country helpless to resist a military foe, causing our people to lose faith in our free Republic.

Up to this time the economic explosion has not resulted. But we must not forget that we have not yet won the battle against inflation and until we do win it there is always serious danger that the economic explosion, which Joe Stalin is predicting for us, might turn into reality. Our expenses are mounting due in large part to the new Asiatic war and preparations for a possible European war.

We are at this time fighting two battles, one against inflation and one against the Red Asiatics. The battle against the physical enemy is the more spectacular and naturally draws the greater interest because it involves our hopes and fears as to the welfare of our own sons. We should and will give our boys all the assistance possible. They are making the greatest sacrifice possible for the welfare of our country.

At the same time we must not forget that loss of the battle against inflation will render any victory won on the battlefields of Asia, a victory won in vain. If we want to keep our country free we must make it strong. Otherwise the sacrifices made by our boys will have been in vain.

Here is the explanation of the diversionary movements of the Red scourge in Moscow. He wants to ruin our economic system, as well as to cause us to waste our manpower. The moment he brings this about we shall have lost the war.

## GLOBAL DRAFTEES

How did Mrs. Anna Rosenberg hit upon 26 months as the ideal draft service in her new universal conscription program?

The answer is found in the recent Senate debates. Mrs. Rosenberg planned four months' basic training, two months' leave and two months' travel to and from the war areas. This would leave 18 months of "useful service" in the 26-month draft term.

"Because of the long distances he must travel to points where he is needed—in Europe, Japan, or Korea—two months will be taken in travel to get him to his post and return him for discharge," explained one Senate sponsor of the Rosenberg selection system. "Thus, there will be approximately 18 months of useful service as a trained man to the army. The committee therefore recommends the longer induction period."

This debate appears to explain the secret reasons behind the hurry-up drive for universal military training—Mrs. Rosenberg's insistent demand for a ready force of American boys equipped for war in any part of the world at a moment's notice.

Many patriotic Americans honestly question if this is the real road to national defense. Perhaps the entire mobilization effort would be stimulated by a less global approach to the problem of American military training.

Is it the fixed policy of the American people to maintain forever millions of American lads under arms, ready for fire-alarm wars anywhere in the world, at the beck and call of those unknown forces which already have given us 53,000 American casualties in Korea?

## HEMISPHERIC CONFLAB PROBLEMS

United States officials are a bit uneasy over the prospects for an international gathering—the meeting in Washington of the American foreign ministers who represent the western hemisphere republics.

The usual unity of Inter-American meetings may be marred this time by arguments over big economic problems. A House committee already has warned that the Latin American nations may use the conference as a "springboard" to obtain new economic commitments from the United States.

To get Latin America's co-operation, particularly in providing strategic resources, there's a feeling the United States will have to pay. For instance, Chile is willing to increase copper production if the United States helps with a loan and guarantees higher prices.

Some other countries are blunt in saying the extent of the cooperation and friendship will depend on how much attention the United States pays to their economic problems. The United States will do its best to forestall a full-fledged debate on economic matters at the conference.

When employer and employee sit down at a negotiating table, the result is more inflation.

Zoo experts say it is impossible to tell one adult polar bear from another because they lack facial expression. We get it—they just give you that frozen look!

Those who hollered the loudest for a pay-as-we-go plan of financing preparedness switched to advocacy of a deferred payment plan after learning the cost.

Now that a course in horse racing is to take its place along with studies in fishing and baseball on the college scene, it looks as though the schools are trying to give the undergraduate an even greater sporting chance of passing his exams.

## President Of France Coming

A Frenchman of the "old school" who lives in the traditions of his forefathers yet can boast of having been a Socialist all his life, arrives in the United States next week as representative of a Western Europe striving desperately to save itself from war and communism.

He is Vincent Auriol, president of the Fourth French Republic. He will be making a long-delayed visit to New York and Canada. It is only because of stubborn determination and methodical habits that he is able to make it at all. A spreading strike of transport and other workers has confronted his country with a new crisis.

But obviously Auriol feels that his long-standing appointment with President Truman and the invitation accorded him to address the United States Congress in joint session override all other considerations.

## Almost A Voice from Past

The 66-year-old French chief executive will represent almost a voice from the past.

As a young Socialist in the Chamber of Deputies he tangled with such giants as Georges Clemenceau and Aristide Briand. His whole life has revolved about his birthplace in the south of France, a small hunting and fishing lodge at Marly outside of Paris and the cluster of government buildings along the Seine.

Despite all his modesty and provincial upbringing, Auriol promises to be a colorful White House guest.

He prides himself, as does President Truman, on arising at 6 o'clock in the morning and it is said that his household has a daily scuffle to get him out of baggy slacks and into the grey-striped trousers and frock coat of his office.

## Of Peasant Family

Auriol was born of a peasant family. But like most Frenchmen he is an epicure. His meals are varied and carefully chosen; his

## TIME TO JOIN CHURCH IMPORTANT

This is the time of year when many children join the respective churches of their parents. In many a church one may see a long row of more or less children lined up in front of the main congregation, pledging in word and gesture their resolve to be faithful members. Many of these children have been attending regular classes conducted by the pastor in the beliefs and doctrines of the particular religious organization of which they are now becoming active members.

This is a strategic period in the spiritual lives of these youths, many of whom are in their teens or are approaching adolescence. They are strong in purpose and idealism and blessed with great resources of energy and enthusiasm.

## Solemn Pledges

As you behold this large number of young idealists and hear their solemn pledges, you like to think that all of them will be at church next Sunday morning and the next and that they will soon be among the most active leaders.

Right now is the time for their parents and relatives and church school teachers to inspire these youths through good example at home and elsewhere, proving themselves to be more lovely persons, more concerned with things spiritual, more exacting of themselves about regularity of attendance at the church school and public worship.

It's a very important time to emphasize grace at meals, family prayer and Bible reading at home, and to have these children actively participate. The old proverb, "Strike while the iron is hot" has special meaning. Now is the time to win these children to attend the church school and church worship regularly.

Should the spiritual ardor of these promising young folks cool, they could easily grow indifferent to their recent resolutions and public pledges. While for a few it may be better to have taken the stand and faltered than never to have resolved at all.

Others who lose interest in the cause they have just so solemnly espoused, the spiritual loss could be so great that it were worse for them than if they never had taken the pledge at all. Fortunately, we do know that some youths who drift away after joining a church do return later. But if parents and all other older members of the church are alert and really on the job, they so shepherd these "lambs" that almost none ever stray from the flock.

These children have long looked up to certain older members of the church. These members should warmly welcome these youths and help them feel they have made a noble decision. These older members should express great pleasure at seeing these youths at church on subsequent Sundays.

These older members can, moreover, use their influence in causing the officials of the church to develop the respective talents of these children and give them responsibilities in the church services and activities.

Fortunately, some church schools find many outlets for these youngsters, even to participate as officers of the church. Some church schools develop special programs for special music groups and special youth services. In some churches these youths are ushers, even members on the various church boards. However, most churches and church schools might wisely consider more ways of cultivating responsibility and leadership among the youths, especially those who recently have become members of these churches.

## THE MAMMOTH CAVE

## Washington Calling

(By MARQUIS CHILDS)

## Truman Facing Serious Task

WASHINGTON, March 23.—In the interval that President Truman has been out of Washington a great deal has happened. While the control and direction exercised by the administration has been weakened, there is now the sense of the absence of any control over the course of events.

Whether, as he returns to the capital, Mr. Truman can reassert a degree of leadership is a question. Certainly, if he persists in following the pattern of the past, the answer is a large and emphatic no. Then the only outcome can be further conflict, decline and disintegration in almost every department.

The president has repeatedly shown that he has a strong feeling for history. He indicated at his last press conference that he is already thinking of his own place in the American record.

## Need For Direction

During his Florida vacation it must have seemed to Mr. Truman's contemporaries that he was about to disappear. Leaving behind, like the Cheshire cat in Alice in Wonderland, only that determined grin. And most of his contemporaries feel that that is not exactly a priceless heritage. Surely, as an able politician, the president must be aware of the need for a new direction.

A new and bold tack. As historian and politician, he cannot help but realize that his place in the record may in a general collapse be permanently obscured under the debris.

In the record of influence and favoritism unfolded before Senate investigating committees there is nothing startlingly new. The vast sums of government money spent during and after World War II gave greater opportunity for the whole tribe of Washington fixers and lobbyists. This was coupled with the general decline in moral values, which is the other side of the coin of sacrifice and patriotism called forth in a war.

Public Blames Administration  
But in the public mind the blame for this miseraled deal with business is being fastened exclusively on the Truman administration and the Democratic party. The president cannot shake it off by offhand remarks such as his denunciation of the Fulbright committee's report on the RFC as asinine.

Senator Fulbright has proposed appointment of a commission to study the relationship between government employees and those who seek to influence them. Senator Douglas of Illinois is working out a new code that would apply rules to the whole field of those in and out of government who seek special favors. He envisions to present this as an amendment to the administrative procedures act.

Should Seize Opportunity  
Here, it seems to me, is an opportunity that the president should seize if he wishes to retrieve some of the lost ground.

## The Escapist

(By HOLMES ALEXANDER)

WASHINGTON, D. C., March 23.—No reader, I surmise, would be persuaded to praise these columns if their author argued as follows: "Shakespeare, Milton, Dickens and Kipling went down in history as great writers, therefore . . ."; yet this is exactly the argument recently presented by President Truman to prove his own greatness and the honesty of his Administration.

As a composite comment on the RFC scandals, Mr. Truman launched into his now-familiar monologue about the time-tested greatness of Jefferson, Jackson, Cleveland, et al.; and vouchsafed the implied opinion that the bust of Harry Truman would someday stand on the same shelf with these Olympian figures.

## Latest Rendition

In his latest rendition of the Me and Jackson soliloquy (so familiar that all Washington scribes know it by heart), the President added a couple of stanzas from other places in his favorite script "Greatness by Association." Despite the record which now runs from deep-freeze boxes to mink coats, Mr. Truman declared that "all my people are honest"; and then to change the subject quickly, he prophesied that his Administration would be known (if there wasn't a war) as the great stabilizer of world peace.

Christian charity forbids much effort to follow the logic of this sequence of thought, and perhaps it's best not to ponder on whether the fate of the nation is dependent on the clarity of its leaders' thinking. It may be fruitful, however, to speculate on the purpose of these statements, always remembering that the President never goes into a press conference without careful preparation. Practically every question he's likely to be asked has been studied in advance, and practically every answer he makes has been rehearsed. What then, since his remarks on RFC were calculated remarks, were they intended to accomplish?

## Seems To Be Over-Anxious

It seems obvious, to begin with, that Mr. Truman is over-anxious not to be judged on present facts or by living persons. His constant reference to past and future history can only be interpreted as showing his aversion to current history. Escapism is a human trait, and Mr. Truman has a right to indulge in it for his own peace of mind. But it's something else when he keeps asking—repeatedly urging—the American public to consider the flowers that bloomed in the spring of Jefferson's administration. What's that got to do with anything? And it seems still more diversionary when the public is asked to fly off into the blue yonder of the future and to postpone judgment on the 1945-51 era until all of us are dead and buried. Surely, one purpose of Mr. Truman's wait-and-see appeal must be to distract attention from things which can be seen without waiting.

Since Mr. Truman is so insistent upon self-comparisons with self-chosen ex-presidents, he must be strangely dissatisfied with the length of his own shadow. George Washington was often called a second Cincinnatus in war and an American Cato in peace, but never by himself. It's impossible to imagine any of Mr. Truman's personal heroes—Jefferson, Jackson, Lincoln—forever reminding the public to look upon them as great men. One characteristic of true greatness is that it is quite unconscious of its size and much too unique for comparison. Self-praise is the surest proof of insecurity, and the last thing any star performer wants is to be called a "second" Babe Ruth, Joe Louis or Abe Lincoln. Mr. Truman's purpose, no doubt subconscious and certainly in vain, is to wheedle people into thinking of him as he likes to think of himself—in the borrowed robes of historic grandeur.

## Some Pathos In Posturings

There is some pathos in these make-believe posturings, and it's always unkind to jeer at a man's human foibles. But in his recent set of statements Mr. Truman seems to be conning himself another role that has no such excuse. When the President starts flaunting his naive trust in politicians—"all my people are honest"—he's stretching his public credulity. It's much too late in life for Harry Truman to assume the "honest" pose. The former Senator from Missouri who sprung full-blown from the brain of Boss Pendergast was no elfin innocent about the facts of political life. And no one lives 15 years in Washington, with previous experience in Kansas City, without learning that watermelons don't get up and walk out of the patch.

What is the purpose of Mr. Truman's oh-so-innocent pose toward wrong-doing in his official family? Perhaps he has read the history books which say that Grant and Harding were naive fellows whose evil friends did them dirt. But the Grant-Harding comparison is no more applicable to Mr. Truman than the Jefferson-Jackson one. It comes a time when escapism thinking won't help a leader's responsibility. If Mr. Truman doesn't know as much about his own Administration as the Fulbright Committee does, then he'd better stop reading books and begin studying facts. His air of see-no-evil doesn't carry much conviction, somehow.

## Looking At Life

By ERICH BRANDEIS

Still being in yesterday's medical mood, permit me to deal with two more diseases that are becoming more and more prevalent.

Just like yesterday's "fallerphobia" you may have never heard of them. But you can see them described in your newspaper every day or witness their pernicious effects at any meeting of your State legislature or whenever you have any dealings with your local tax collector or dog catcher.

And since they, too, have not yet a scientific name, I shall entitle them "Paranoia, officialis" and "Psychosclerosis."

I treat both of these diseases in this article because they are interrelated.

Their origin is quite mysterious, just as the origin and nature of Virus X is an unknown factor. Unlike Virus X, however, they do not affect everybody, but seem to confine their activity to elected or appointed office holders and politicians.

As is to be expected, the diseases in their conjunctive state, are most prevalent in Washington.

However, in lesser but no less malignant form, you will find them also in every State capital and also in most city halls, town halls, and even among the officials of the smallest communities.

Let me describe the disease to you.

Paranoia, as you all know, is a chronic mental disorder characterized by systematized delusions of persecution and of one's own greatness, sometimes with hallucinations.

I added the Latin word "officialis" as meaning that it is found primarily among officials.

I have called the other disease "Psychosclerosis." The word is a combination of the Greek "psyche," or mind, and "sclerosis,"

which means "hardening" or "petrification"—in other words, the whole word meaning hardening or petrification of the mind.

To give you an example.

Some few days ago a New York evening paper carried a five-column headline "Senators Hit Connally for Insults to Hoover."

Under it was a picture showing Senator Tom Connally sitting in the lower left hand corner, and several others standing up and applauding Herbert Hoover just after he had given testimony to the Senate Foreign Relations Committee.

The caption said, "Senator Tom Connally (D. Tex.) sits scowling as other members rise to applaud Mr. Hoover's testimony against sending U. S. ground forces to Europe."

I have never examined Senator Connally for any ailments or diseases he may have.

But in this picture and by the story accompanying it he certainly shows symptoms of both the Paranoia Officialis and the Psychosclerosis.

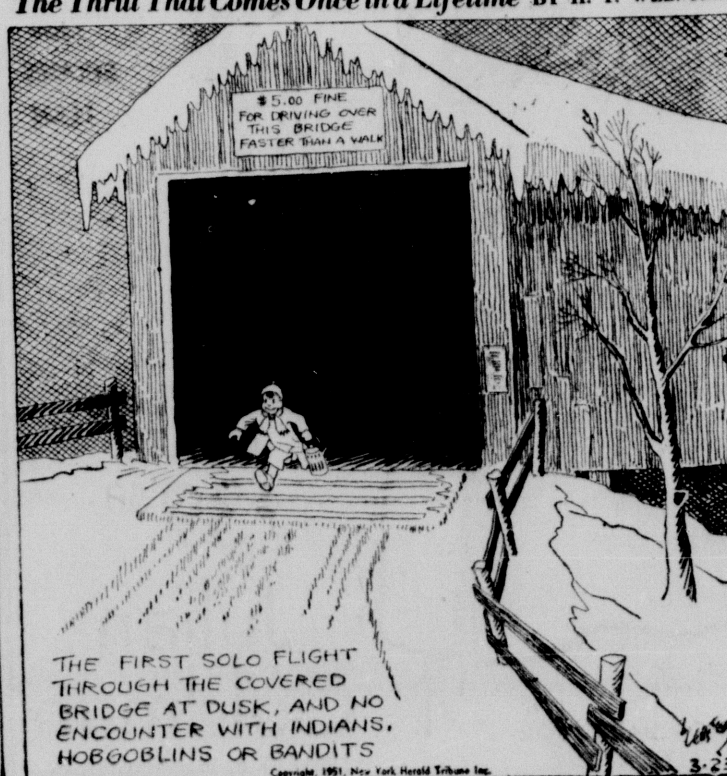

Among the typical symptoms of Paranoia Officialis are lack of good manners, discourtesy, overbearing behavior and delusions of greatness.

Psychosclerosis is always accompanied by refusal to respect the other fellow's viewpoint, by ever increasing inability to accept anything that is new, by closing one's mind against progress of any kind and by insulting and maligning everybody who dares to oppose the patient.

Unfortunately so far there is only one cure for these two diseases, and sometimes it takes four or six years before it can be applied.

It can be done only at the polls.

Climaxing the biggest year since its founding, the Western Pennsylvania Artificial Breeding Cooperative elected officers, received 1950 activities, and looked ahead confidently to even greater achievements at its 6th annual meeting held at Clarion, Wednesday. # Guzik Facing Senate Charge Of Contempt

By FRANK B. ALLEN  
(U.S. Staff Correspondent)

WASHINGTON, March 23.—Jake (Greasy Thumb) Guzik looked down both barrels of the Senate crime committee's shotgun today and found one loaded with contempt proceedings and the other with possible perjury charges.

Chairman Kefauver (D) Tenn. said today that when Guzik comes back March 30 he will ask the Chicago mobster about his testimony that he had not consulted a lawyer.

Kefauver said he had learned that Guzik was accompanied by a Chicago lawyer, George Gallagher, and a Washington attorney, William Collins, when he appeared for arrest at the office of Senate Sergeant-At-Arms Joseph Duke.

**Posted \$10,000 Bond**

Guzik came to the committee without counsel, and testified under oath—after some hesitation—that he had not consulted a lawyer. "Greasy Thumb," reputed business manager for the so-called Capone syndicate, which the Kefauver committee said "enforces its decrees by bombs and murder," posted a \$10,000 bond to appear before the committee March 30 under the warrant of arrest voted by the Senate.

At the same time, the committee voted unanimously to ask the Senate to cite him for contempt as result of his repeated "I refuse to answer" replies to committee questions.

The committee was in recess

today. For Saturday it called as witnesses Louis Farrell, a Des Moines liquor wholesaler whom it wants to ask about racketeers infiltrating the liquor business; Sidney Brodson of Milwaukee, reputed betting "commissioner," and Abner (Longie) Zwillman, North New Jersey racketeer.

## WASHINGTON CALLING

(Continued from Page Four)

power is divided and sometimes hopelessly divided in time of crisis.

### Not To Seek Re-Election?

If, as more and more of his friends and intimates have come to believe, he does not intend to seek re-election, he can afford to take a dispassionate and objective look at the most horrendous job in history. Such an examination, dramatized through a committee of public inquiry or in some other fashion, could point the way to much-needed change. It might even be a preliminary to a constitutional convention which would take up the whole complex problem of the relative powers of the legislature and the executive. That, incidentally, is the real theme of the debate in the Senate over the

authorization of American divisions for Europe.

### Will Be None Of Them

Will President Truman do any of these things? The odds are certainly against it. Just a year ago many were pointing to the need for a broad-gauge commission above politics to survey the charges of communism in government.

Those charges then very much in the headlines were never proved. Even a minority report of the Senate investigating committee, prepared by Senator Henry Cabot Lodge of Massachusetts, did not claim proof. But in the phrase of the smart public relations expert an area of doubt has been created. A non-political commission of inquiry might have resolved that doubt. That some kind of approach today would help to restore public confidence and it also could contribute to more honest government.

### ESKIMO

The Eskimos away up North around the North Pole do not have tooth decay. The dentists are trying to figure out why these people do not have cavities in their teeth.

Some think that it is because they do not have sugar to eat. Maybe the blubber has something to do with it.

Anyhow, people around here have lots of cavities. Washing the mouth and teeth after eating seems to help.

Even after eating candy it is a good idea to take a mouthful of water and swish it around the teeth.

## Speculate On Movie Future Of Larry Parks

HOLLYWOOD, March 23. — (INS)—The film industry speculated today on Larry Parks' future in pictures, now that the singing star has admitted his one-time Communist affiliations.

A spokesman for his studio, Columbia Pictures, said his status will be determined by the way the public reacts to the actor's revelation.

Asked about the remainder of Parks' contract, which calls for a picture a year for four more years, the spokesman said:

"That's more up to the public than it is to us."

Parks' admission of his former Red connections shocked his wife, Actress Betty Garrett, into a state of collapse.

Meanwhile, the U.S. Marshal is still hunting for 10 Hollywood figures to serve them with subpoenas to testify before the House un-American Activities Committee.

He listed those he has been unable to locate as Karen Morley, Paul Jarrico, Fred Rinaldo, Lew Solomon, Michael Uris, Georgia Backus Alexander, Jack Berry, Hugh Butler, Leonardo Bercovi and Edward Huebsch.

## Work Resumed At Bridge Site

Indications that work will be going forward on the construction of the Grove street bridge on a full scale basis were noted today when a big power shovel and bulldozer started work of clearing away the earth which has been left around the east side abutment of the bridge.

No work has been done at the bridge since adverse weather set in with the big snow last fall. Air compressors and other paraphernalia have been moved to the job in the last few days, and with spring weather arriving, work will likely be renewed toward the middle of the structure, another project which will put additional men to work here.

## Deaf Mute Is Convicted At Murder Trial

ATLANTA, March 23. — (INS)—A voluntary manslaughter verdict today started an Atlanta deaf mute on a 10 to 20-year prison sentence for strangling his paramour's husband.

Allen T. Jones, 32, was convicted late yesterday in the strange "triangle" slaying case in which all the principals were deaf mutes.

Sign language testimony told of Jones' illicit love affair with the wife of the victim, William H. Knight, who was slain in a hand-to-hand fight with Jones Feb. 17.

The state has asked the death penalty for the defendant, who was described as a thieving paramour who took the wife and life of his fellow worker "so he could take Mrs. Knight unto himself."

Mrs. Knight admitted having intimate relations with Jones because she was afraid of him.

The defense claimed Jones fought against Knight in self-defense and unknowingly strangled him with hands made powerful through "talking."

## Around Hollywood

By JAMES PADGITT  
(International News Service Staff Correspondent)

HOLLYWOOD, March 23—Crying is one of the few steps in film making that is still devoid of mechanical tricks, so when a director tells a glamor queen to "go out there and weep" she is supposed to do it more or less naturally.

Nobody knows why crying should be considered sacred from mechanical gimmicks. Some think Hollywood's attitude is a throw-back to silent days when stars resorted to glycerine and onions to produce tears and the kidding by press and fans never let up.

Others believe there is a challenge involved. The feeling on a movie set now is that if a girl believes herself an actress, then she should be able to shed tears without an assist from makeup men, except for necessary repairs.

**Must Feel Miserable**  
Doris Day, who is one of Hollywood's most carefree people, has to feel downright miserable before she can turn on the tear ducts. She had to weep all day for a scene in Warner Bros. "On Moonlight Bay," it was quite a chore.

"For years," explains Doris, "I trained myself, when facing an audience or a camera, to concentrate on how to make people

**HADACOL Is Requested By Nurses**

HADACOL Helps Folks Suffering Deficiencies of Vitamins B1, B2, Niacin and Iron

Registered nurses, in increasing numbers, are showing a keen interest in HADACOL and in the results that are being secured with this great modern formula. Requests have been received from many of these nurses for professional samples of HADACOL and many of them indicated that they recommend the HADACOL formula to patients who are deficient in Vitamins B1, B2, Iron and Niacin.

Mrs. L. D. Lovett, a registered nurse who lives at 2205 Walnut St., Philadelphia 3, Pennsylvania, says this about HADACOL:

"I was down in Florida for the past month. I had no energy so several members of my family told me to try a bottle of HADACOL. My sister, who is a nurse, was taking a bottle so I tried a bottle. I feel fine since taking HADACOL. I do private duty here. I am 50 years old."

HADACOL can help you if you suffer such deficiencies. Ask your druggist for HADACOL today. Only HADACOL gives you that "Wonderful HADACOL feeling."

happy by my singing or performance. It wasn't easy to overcome that habit.

"I thought of the scene that is supposed to cause my tears because sometimes that helps. I finally hit on an unhappy thought. I remembered a recent fire in which a lot of animal pets had been killed. I love animals and the thought of them dying helplessly made me want to cry plenty—and I did."

**Use Various Methods**  
Other stars use different methods to induce the desire to weep. Joan Crawford goes into her dressing room alone for a few moments.

When she comes out she is weeping generously enough for the saddest scene.

Virginia Mayo looks at the sun, sneezes once and the tears are

there. On cloudy days she has one heck of a time, but by thinking of unpleasant things she manages to please the director.

Barbara Stanwyck sits alone for a while and the tears come. Vivian Leigh just cries on cue, without any warmup at all.

Perhaps one of the most effective ways of bringing on tears is that of the practical-minded star who admitted:

"I just think of the salary I will lose if I'm not able to cry."

**WITH TWO TOPS**  
Kathryn Grayson has to have evening gowns with two tops when she is on concert tours.

The tops are attached to the body of the gowns by zippers. Reason for it all is that Kathryn has a chest expansion of 44½ inches, supposedly a half inch better than Joe Louis, when she gives with the high notes.

The special top for her singing has pleats and an elastic inner lining in order to allow for the high notes. The other top, of course, is for ordinary wear.

## Gets Promotion On Battlefield

Clifford E. Black Is Made First Lieutenant

Friends of Clifford E. Black, son of Mr. and Mrs. Franklin C. Black of North Mill street, will be interested in learning that he was recently promoted to the grade of first lieutenant on the battlefield in Korea, having steadily risen in rank from the grade of sergeant, which he held when he went into action against the North Korean and Chinese forces early last July.

Lt. Black has been serving with the medical corps of the 24th division, and was the first New Castle soldier to be a casualty in the fighting in Korea, having been wounded in the early days of the fighting. He was hospitalized for a short time, and returned to the fighting front.

In October he suffered injuries which again put him in the hospital, and after returning again to his unit took ill and was again sent to the hospital in Japan, the day after receiving his promotion to first lieutenant, which took place on December 11.

Lieutenant Black had previously been promoted to second lieutenant. He has been in service for three years, and was stationed in Japan when the fighting broke out. He is hopeful of being returned to the United States for a well-deserved leave in the near future.

## Sunrise Service Easter Morning At Cook Forest

Motorists desiring to attend are advised to proceed to Leeper, Pa., in Clarion county, on state route 26, and then seven miles into the heart of the forest.

Mr. Phelps also spoke on the advancement of methods of teaching in the schools, of child guidance, religious teaching in the home and church, personal life where parents must lead, moral guidance which should begin at home, ethics, which includes things we owe our fellow man, and education, with teacher as the advisor.

Delicious refreshments were served by the social committee, with tables decorated in Easter style. Committee, Mrs. Clair Weaver, chairlady, and aides Mrs. John Dudash, Mrs. Joseph Conan, Mrs. Philip Phelps, Mrs. Harry Jermakowicz, Mrs. Walter Ridenbaugh and Mrs. Dale Hennon.

## Boxer May Restore Sight To Seaman Who Is Going Blind

NEW YORK, March 23.—(INS)—The savage battering of the prize ring that left boxer Eric Johnson with good vision in only one eye may shortly restore sight to a 24-year-old seaman who has been steadily going blind.

Doctors at Marine hospital on Staten Island have told the 27-year-old Johnson that he is suffering from a detached retina—one of the occupational hazards of boxing—and that there's no hope for improvement.

So Johnson, who was born in

India and has boxed his way around much of the British commonwealth under the name of Rajah Sabu, will donate the undamaged cornea of the eye—his right one—to try and restore the vision of a man he has known for only three weeks—the man in the bed next to him in the hospital.

He is seaman Phil Pron of Jersey City, who has been in the hospital since last May. Pron suffered a head injury when his ship was just two days out of Gibraltar. His vision began to fail and when the ship docked he found himself virtually blind.

Doctors told him nothing would help except another pair of corneas. He told his story to Johnson as they talked from bed to bed. After Johnson found that an-

other operation wouldn't help him he said: "If they can't fix me up here—you can have one of mine."

So next Thursday an eye surgeon will remove the cornea from Johnson's right eye and transplant it to the seaman's right eye.

full-bodied and gracefully muscular, with a rich voice and a handsome pliant face, she handles with vigor and authority the characterization of a tortured libertine. It is not too excessive to describe her as Anna Magnani minus fifteen years, Ingrid Bergman with a latin disposition and Rita Hayworth plus twenty-five pounds. Passion toils and tumbles through 'BITTER RICE'. It is as earthy and elemental as any picture you are likely to see."

—BOSLEY CROWTHER, N. Y. Times

"Miss Mangano is always fine—the acting is always incisive. It is the real modine, who contribute most of the excitement in 'BITTER RICE', performing with a great naturalness and conviction."

"Mangano wears her curves in the right places." Carl Krug, Sun Telegraph.

## GNCA To Hold Member Forums

Every member of the Greater New Castle Association should know what makes his organization tick, in the opinion of Executive Vice President Eben L. Reid.

In order to acquaint the membership with the aims, policies and activities of the GNCA, Mr. Reid has arranged for a series of member educational forums to be held in the Castleton hotel.

The forums will be held at ten in the morning and three in the afternoon each day except Saturday and Sunday between March 28 and April 6.

Members are invited to bring non-members with them. Any member who cannot make the forum to which he is invited is welcome to attend any other session and in order to accommodate those who cannot make daytime forums, two special night meetings will be held.

ports were diverted from regular duties to aid in the search and two navy Privateer planes also were ordered into action.

**General Aboard**  
Washington, March 23.—(INS)—The air force confirmed today that Brig. Gen. Paul T. Cullen is aboard its giant Globemaster plane missing over the Atlantic.

Cullen, a native of Ica, Peru, who became a citizen in California, is deputy commander of the second air force with headquarters at Barksdale field, Shreveport, La.

The air force said a total of 53

## men were aboard the plane. The names of those aboard in addition to Cullen are to be released, probably at Barksdale, when nearest relatives have been notified that they are missing.

An air force spokesman said that there is still much hope that the plane may have landed safely, possibly in the Azores or in Iceland.

## U.N. FORCES IN STRONG ADVANCE

(Continued from Page One)

punch" rolled relentlessly northward "crushing everything in their path and giving no indication of stopping at the controversial parallel."

The double thrust above Seoul produced spectacular advances up to 20 miles and clamped a powerful nutcracker squeeze on thousands of Chinese and North Korean troops retreating toward the parallel, less than ten miles away. Correspondent Don A. Schanche reported that "Task Force Hawkins," named for its Mississippi-born commander, Lt. Col. Wilson Hawkins, after smashing through Uijongbu found two companies of Red infantry dug in on a hill to the northeast and more Reds armed with mortars, holding a hill to the northwest.

Heavy fire from tank guns pinned the Communist troops in their foxholes. Schanche said American casualties from enemy mortar fire were reported to be "light."

**Biggest Air Battle**  
Simultaneously, one of the Korean War's biggest air battles, involving 45 or more jet fighters, broke out over the northwest Sinju area. Fifteen American F-86 Sabrejets tangled with 30 or more

Russian-type MIG-15 jet planes in a 15-minute dog fight.

The U. S. Fifth Air Force announced Friday night that two of the 600-mile-per-hour enemy MIGs were damaged—both of them by Sabrejet pilot First Lt. William Yancey of Highland Falls, N.Y. The announcement did not state whether any of the American F-86s had been hit.

The Sabrejet pilots reported that the Communist jet flyers were "very aggressive" in one of the strongest enemy challenges yet to confront the United Nations' mastery of the Korean skies.

On the ground it was a different story as three tank-paced UN divisions, supported by artillery and waves of planes, smashed ahead eight to 20 miles during Good Friday in a trip-hammer western front offensive above Seoul.

**Link Up With Paratroopers**  
The Eighth Army's Friday night offensive said a mighty American tank-infantry task force, accompanied by British bridge-building engineers, "linked up with U. S. paratroopers" at Munsan at 6:30 a. m. EST.

The bulletin said "light contact" with Communist troops was reported at Munsan, 20 miles northwest of Seoul and ten miles below

Parallel 38, at 2 o'clock in the afternoon last midnight EST.

Elsewhere along the Korean front, the communique added, northward-driving Allied forces encountered "light" and "scattered" enemy resistance.

The UN ground forces were credited with having inflicted an additional 2,650 enemy casualties in Thursday's fighting.

On the western front, a 15-mile-wide Allied offensive was ramming heading into the last major Chinese and North Korean forces left in South Korea.

Northwest of liberated Seoul, thousands of battlewise American paratroopers landed behind North Korean units near Munsan on the Imjin river's south side, ten miles below Parallel 38. A few hours later, a power-packed American-British task force joined hands with the airborne troops after a 20-mile dash from Seoul.

**TO AID ITALIANS**  
OTTAWA, March 23.—(INS)—Defense Minister Brooke Claxton says Canada is going to equip an Italian infantry division. Claxton announced that arms, vehicles and stores will be sent free in the interest of collective defense under the North Atlantic Treaty.

**Klebe Swing Sledge, Hits The Jackpot**

County Detective Howard C. Klebe hit the jackpot Wednesday afternoon. He hit it four times on four different slot machines but he used a sledge instead of money.

Mr. Klebe destroyed four slots which have been in the possession of the county for some months following their confiscation in Hillsville.

The four jackpots amounted to but little, a total of \$46.30, which the county takes.

**RECOVER TELEVISION SET**

Recently there was a fire in a home outside the city. About the only piece of furniture the owner was able to get out of the house was a television set—and somebody stole this as it sat on the lawn.

County Detective Klebe investigated the case and found that two juveniles had taken the set. He recovered it and the juveniles will be heard in juvenile court.

**SUES FOR \$100,000**

Ethel D. Coryea, widow of the late Edison T. Coryea, has entered two suits against Edward D. Chadderton of Sharon for the death of her husband on May 18, 1950.

She asks \$50,000 for herself and daughter, \$50,000 for loss of income by her husband and \$737 for a funeral bill. The suits are brought under the Survival Act and the Wrongful Death Act.

On May 18, 1950, about 6 in

the morning Gerald Holman, driving a steel hauler, was driving north on the New Wilmington road north of the New Castle Country club. Edison T. Coryea was driving south on the same highway. The steel hauler hit the light truck driven by Coryea, pushed it over a bank and then toppled over on it, crushing Coryea.

It is alleged that Holman was on the wrong side of the road, that he had fallen asleep and was driving too fast under the circumstances.

NORTH BAY, Ont., March 23.—(INS)—Edward B. Murphy, prominent retired business man, has been acquitted of the murder of his wife, who he pleaded had "henpecked me" for 30 years.

Murphy told the assize court in North Bay that his wife Bella, 64, had attacked him with a hammer in their home after accusing him of "keeping another woman".

The 69-year-old defendant told the court he grappled with her in self-defense and she died in the struggle.

## Refuses To Tell Jury If He Is Communist

NEW YORK, March 23.—(INS)—A defendant in the atom bomb spy trial, who faces a possible death sentence, refused Thursday to tell a jury whether he was a member of the Communist party because it "may tend to incriminate me."

Julius Rosenberg, 32, taking the stand in his own defense, denied passing any atomic secrets to a Soviet spy ring during wartime.

Rosenberg, on trial with his wife Ethel, 35, and Morton Sobell, 33, said he owes his allegiance to the United States and "will fight for this country in a war with anybody."

He took the stand as the first defense witness to counter government charges he was a member of the notorious Harry Gold-Dr. Klaus Fuchs espionage ring which succeeded in stealing the nation's top atomic secrets for Russia.

The slim, tall defendant denied point by point the testimony of his brother-in-law, David Greenglass, self-confessed atomic spy, that he (Rosenberg) was the "contact man" for Gold in the United States.

The question of whether Rosenberg belonged to the Communist party or any political group arose when he told the jury under questioning that he frequently discussed the differences between the Russian and American systems.

Judge Irving Kaufman then interceded and asked: "Are you or were you a member of any political group including the Communist party?"

Rosenberg replied: "I refuse to answer the question on the ground that it may tend to incriminate me."

The judge said he wouldn't insist at that moment on an answer.

## Taft Believes U.S. Should Provide One-Tenth Of Troops

WASHINGTON, March 23.—(INS)—Senate Republican Policy Leader Taft proposed Thursday that the number of U. S. troops sent to Europe should be held to about one-tenth of the total strength of the North Atlantic Defense Force.

Taft made his proposal in the form of an amendment to the "troops to Europe" resolution now before the Senate.

The amendment would insert in the resolution a proviso that "the total contribution to such ground forces to be made ultimately by the European members of the North Atlantic treaty should be approximately nine times the total contribution to be made by the United States."

## Auto Production Being Stepped Up

DETROIT, March 23.—(INS)—Automotive News said today that with tighter material restrictions due April 1, auto plants in the U. S. this week stepped up schedules to the highest level of the year.

The week's production was estimated at 142,230 cars and 31,097 trucks for a total of 173,327 vehicles. Last week's output was 136,511 cars and 31,434 trucks—a total of 167,945 units.

The trade publication said that with the tighter curbs on civilian use of steel, copper and aluminum "it is impossible to foresee to what extent the industry must lower its civilian output from the levels obtained in 1950."

Predicting an all-time first-quarter production record of 1,988,000 vehicles by the end of this month, Automotive News added: "The pessimism regarding passenger car production that prevailed a few months ago is unwarranted now."

## Cooperation Of Business, Colleges Babsons' Theme

By ROGER W. BABSON  
(Copyright, 1951, Publishers Financial Bureau, Inc.)

BABSON PARK, Fla., March 23.—Closer cooperation between business and education may save our private institutions of higher learning and, at the same time, bring about increased profits for business.

Roger W. Babson

Education and business, working hand in hand, can also make themselves of greater value to the country in this national emergency. Business Needs the College. One of the soundest ways to preserve private enterprise is to give financial aid to young and needy potential business executives studying in colleges which are especially appreciative of American business and sympathetic to its problems. Most professional colleges of business have this point of view. Young men therein educated are of especial value to business. They not only learn specialized techniques, but

they also acquire a sound philosophy of American business. Business needs such young men. Business also needs the brains and research facilities of the colleges. Many small and middle-sized companies cannot hope, by themselves, to keep pace with the research of big business; but by pooling their efforts with the colleges, their usefulness and profits can be increased. Business provides the funds; the colleges provide the research laboratories.

**The College Needs Business**  
In these times of partial mobilization and declining enrollments, the college needs the help of business. Education is the bulwark of democracy. If America is to win the battle of ideologies, it will be by brains—not by brawn. The survival of private enterprise is, therefore, closely tied to the survival of our educational institutions. To survive, our colleges greatly need the financial support of business, which should feel obligated to help keep our system of higher education strong.

Colleges today are in a precarious position. They are victims of a war-time economy. With decreased income from tuitions and inflated costs of operation, plus being buildings-and-land poor, with income from endowments inadequate, colleges are having rough going. Some are already operating in the red. Many more will lose money next year. A cooperative venture between business and education is, therefore, an intelligent solution to many of the problems of both groups.

**Ways Of Cooperation**  
Many colleges are already doing a vast amount of technical research for government and business: Boston university in optics, Georgia Tech in aeronautical engineering, University of California in goods, University of Wisconsin in naval research, Stanford in radio, Michigan State in fuel, Massachusetts Institute of Technology

in manufacturing. Babson Institute in marketing—to mention a very few.

Other possible areas of cooperation are workshop seminars for top management. These are custom-built courses of short duration to meet specific industry and company problems in consumer research, marketing, advertising, product development, taxes, etc. Refresher group conferences for foremen, sales managers, bankers and accountants can do much to keep both business and education on their toes.

**Financial Engineering**  
Yale university has pointed the way in research in labor relations with its labor-management center. Whole new areas are practically unexplored—such as atomic warfare, business decentralization and traffic problems. Other areas are job evaluation, job satisfaction, corporation conduct, public relations, organizational communication, corporate finance and statistics.

The subject of taxes alone offers rich responsibilities for business-college cooperation. Taxes have become far greater than a legal question. We have in the U. S. A. one of the strongest potential working teams any country has ever known: the research facilities of business. In harness together they can become invaluable helpmates. Now is the time to build our team and keep our country strong.

## Merger Of Five Gas Companies Is Given Approval

HARRISBURG, March 23.—(INS)—Merger of five natural gas companies serving 74,000 consumers in 16 western counties was approved Thursday by the Public Utility Commission. The firms are United, Ridgway, St. Mary's and Smethport Natural Gas companies and the Mercer County Gas company, all with offices in Oil City and all subsidiaries of the National Fuel Gas company of Newark, N. J. The PUC said the new company will be known as the United Natural Gas company. The utilities said more efficient operation will result from pooling their properties.

## District Income Tax Refunding At Pittsburgh Ended

Pittsburgh office of the Bureau of Internal Revenue leads the nation in the number and amount of Income Tax Refunds which have reached the hands of its taxpayers public.

Stanley Granger, Collector of Internal Revenue, for the Western District of Pennsylvania, stated today that his Refunding Program was concluded on March 20, and that some 866,815 taxpayers in this district were given refunds that approximated \$38,727,170.00.

The Pittsburgh office which has led the nation in concluding its Refunding Program, finished three days ahead of last year. Mr. Granger also stated that he expects to lower last year's record in the cost per return when the figure was .059 cents. Last year this figure was about .02 cents per return less than the next office.

The big item of interest to the taxpayer public is, of course, the fact that this district will not pay a single cent of interest which is consistent with the record of the past six years.

# No Worry Over Easter Suit: At Camp Atterbury

CAMP ATTERBURY, Ind., March 23.—Well, folks, one thing the soldiers of the 229th FA Bn need not worry about, are new Easter suits. We have ours all picked out for us, shade 33, wool ODS.

The training of this battalion is going ahead according to schedule. The three firing Batteries are going through their practice test this week. It should be a good one, with all this snow that is covering the ground. It started to snow Sunday night and Monday morning there was about 6 inches covering the ground, with more on the way.

M. Sgt. Harold Kuhn of R. D. 6, New Castle, Pa., returned from Ft. Riley, Kansas, where he attended the Intelligence School, and set up shop in the Battalion CP keeping us posted on the war in Korea.

With the discharge of Lt. Frank Selinsky of Philadelphia, Pa., Lt. Floyd D. Campbell of Temple Ave., New Castle, Pa., will take over duties as Battalion Motor Officer. Lt. Campbell was in command of the Provisional Battalion, training the new men who recently came in to our outfit. Lt. Robert Jones of S. Water St., Sharon, Pa., will assume command of the Provisional Battalion with Lt. Glen Gordon of

Maryland Ave., New Castle, as his able assistant.

The Battalion has started receiving their inoculations and what fun we will have. Each man will receive approximately ten different shots, making our arms look and feel like pin cushions.

All of the Fillers who are slated for overseas shipment have gone home on their 12 or 13 day furloughs, returning back here before reporting to their Port of Embarkation. Most of the boys live in the New England states and were very happy to be on their way.

Tonight we are going on another road march, and this Personnel Office with SFC Robert Goschke of Worthington Ave., New Castle, Pa., in command, hopes to be out in full force. It should be an enjoyable evening of fun.

Sgt. Jack A. Hammond, 422 E. Long Ave., New Castle, Pa.

## WITH NEW CASTLE AFRO-AMERICANS

## Russia Will Seek To Block UN-Red China Peace Moves

By PIERRE J. HUSS  
(U. N. Staff Correspondent)

LAKE SUCCESS, N. Y., March 23.—Western leaders are convinced today that Russia will strive with all means to block peace moves between U. N. and Red China if a military stalemate develops above the 38th parallel in Korea.

Soviet delegate Jacob Malik struck the first blow in that direction by an announcement at Lake Success which dashed any hopes that the Soviet Union might be willing to cooperate in ending the Korean conflict by negotiation.

Malik, timing his statement to the rising speculation at U. N. as General Douglas MacArthur's forces approach the 38th parallel, said:

"I consider it necessary to state that I am not conducting any negotiations with either the members of the so-called U. N. good offices committee or with Mr. Trygve Lie."

"Any information to the contrary is devoid of substance."

### Not Calling Off War

Diplomatic observers point out that Malik skillfully served notice on U. N. that Russia will not call off the war and at the same time signalled a warning to Chinese communist leader Mao Tse-tung against becoming involved in any peace talks with Lake Success.

Last Sunday it was disclosed that U. N. Secretary General Trygve Lie had sounded western powers on new steps toward a peaceful settlement in Korea on the basis of a truce in the fighting and that Malik was contacted without success.

The three-man good offices committee to which Malik refers has been sitting idle since early in February, waiting for signs from the Swedish and British representatives in Peking that Mao's regime has dropped its earlier belligerent attitude in favor of a truce and peace negotiations.

Peking has remained silent, except that the steady withdrawal of Chinese communist forces into North Korea rolled into circulation the belief that Mao wants to break off the fight in the face of heavy losses and sit still somewhere in North Korea.

## Eagles Auxiliary Members Hostesses To State Officers

About 125 officers and members of New Castle and nearby auxiliaries of the Fraternal Order of Eagles, were present at the ceremony honoring the officers of the Pennsylvania State Auxiliary, with President Orpha McConnell presiding.

A large class of new members was initiated in honor of the state officers. President, McConnell; past president, Cecelia Jackson; vice-president, Ruby Thompson; and chaplain, Pearl White, presented the exemplification of the ritual in a beautiful ceremony. Captain Adaline Navarra was in charge of the degree work and later presented her drill team in a marvelous display of figure formations, ending in the forming of the letters F.O.E.

The state officers were presented to the assembly and given courtesies and a gift from President McConnell in behalf of the New Castle auxiliary. The state officers present were president, Kay Guy; secretary, Jessie Graver; treasurer, Cora Burchfield; conductress, Adaline Navarra; inside guard, Lucy Plues; outside guard, Cecelia Jackson; and trustees, Helen Stillwagon, Lena Renz, and Nettie Thomas; and secretary-treasurer of the membership board, Henrietta Davis.

The honor guests were given gifts by President Lusher, of Franklin; and President Turner,

of Ellwood City; other auxiliaries represented were Freeport, Monongahela, McKeessport, and Grove City.

State President Kay Guy, thanked her and spoke of the wonderful progress made by New Castle in their plans for the state convention to be held here June 19 and 20. The other officers thanked those present for their grand reception and gifts.

Past President Elsie Pugh, presented President McConnell with a gift from the local auxiliary.

State officers, Navarra, Davis, Jackson, and President McConnell were invited to attend the anniversary dinner at Irwin, Pa., on Tuesday, April 24.

Mrs. Henrietta Davis, chairlady

for April, stated the past presidents and charter members party would be held Tuesday, April 3. An anniversary dinner will be held in April, also a tureen dinner.

At the close of the evening's festivities a delicious lunch was served by Mrs. Nettie Stamos and Mrs. Betty Semler, chairladies for March, and their aides, Mrs. Mamie Ryan, Mrs. Mary Ellen Hannon, and Mrs. Mary Vitulla.

The next regular meeting will be Tuesday, April 3, at 8 p.m.

# Finals In Y M C A Junior Tourney Will Be Played Saturday

## Morellas, Hi-Landers Meet For Tourney Championship

The coveted role of tournament finalists was gained by the Hi-Landers and Morellas last night at the Y. M. C. A. in the sixth annual junior playoffs.

A surprisingly superior Hi-Lander team threw up a blanket zone defense against Micks and limited them to 13 field goals while winning comfortably 52-38.

Micks had trouble organizing in the first moments of the first quarter when the Hi-Landers jumped to a 10-1 lead which held sway throughout the game.

The difference was only four points in the second period, at 16-12, but Vitale and Bucker registered with late period field goals to open the point gap. Hi-Landers led 23-15 at intermission.

Hi-Landers Lead 41-24

Any doubts as to the outcome were quickly decided in the third quarter when the Hi-Landers continued to hit successfully. Vitale, Bucker, Bucky Tate, and Dave Horcher helped themselves to field goals and the period score read 41-24. Hi-Landers.

Ralph Manzo scoring honors for the game with 19.

Pazak, West, and Boyd, all fouled out of the game.

Morellas' depth, as expected, carried them into the finals, in the second game of last night's semi-finals.

Morellas led at every period to stop Biondi Insurance (New Castle underdogs) 60-53 although the darkhorse Milanovich team stayed within upset-distance the entire way.

A marked-experience-advantage proved the difference last night, as Don Reed and Randall Walford displayed their know-how for a total of 38 points.

Runyan, Strehler Star

Sophomores, Don Runyan and George Strehler, provided a tremendous boost for Biondis, contributing 35 points between them. Morellas led 15-13 at the quarter and hiked their advantage to 30-23 at halftime, but could never settle the game until the final quarter as the losers kept pace almost the entire distance.

Morellas will play the Hi-Landers in the finals at the Y. M. C. A. Saturday night, following two junior church league playoffs and the consolation game between Micks and Biondis.

The consolation game will begin at 8 p.m. and the finals will follow immediately.

STEELERS SIGN SANTNER

PITTSBURGH, March 23.—(INS)—Ernie Stautner, former Boston College star, today was the first player to sign a contract with the Pittsburgh Steelers professional football team for the 1951 season.

The 26-year-old defensive tackle from Lake Saranac, N. Y., is a World War II veteran.

## Stock County With Pheasants

### 1,050 Hens And Male Birds Stocked

Six hundred hens and 450 cock birds were stocked by game protector Calvin Cooper, deputy sheriff Thomas O'Brien and other sportsmen as the county's spring allotment of pheasants from the state during the past few days. The birds were distributed in all parts of the county, Hooper reported.

Hooper reported that 60 additional birds are to be received soon. They were birds reared by sportsmen here, but which were held over by the State Game Commission for spring stocking.

The game protector also reported that throughout the winter there was trapped and released in Lawrence county rural sections 1,439 rabbits.

Promoter Herman Taylor said the substitute for the ailing Williams will be making his first appearance in Philadelphia, and holds knockout victories over John L. Davis, Gene Burton and Rudy Cruz.

# Brigham Young Will Face Test In Kansas State Five Tonight

By KEN OPSTEIN  
(L. N. S. Sports Writer)

Brigham Young undergoes a major test tonight in its quest to win college basketball's double crown when the Skyline conference champions meet powerful Kansas State tonight in the western NCAA semi-finals at Kansas City.

The University of Washington's surprising aggregation (23-5) fights defense with defense in the other semi-final contest with Oklahoma A. & M. (28-4).

In the East this is a day of rest before Kentucky (29-2) and Illinois (21-3), play for the eastern NCAA laurels Saturday night and the right to clash with the western representative for the national championship at Minneapolis on Tuesday.

Washington Wins

Washington's light-as-a-drum defense enabled the Pacific coast conference titlists to eliminate Texas A. & M., 62 to 40, last night. The Seattle team plans to use this same strategy tonight against Oklahoma A. & M. in the second game of the doubleheader.

The Aggies were extended almost to their limit before topping Montana State, 50 to 46, in the other quarter-final game at Kansas City.

Kentucky-Illinois Win

At Madison Square Garden championship favorite Kentucky and Illinois won with basket bargains in the final five minutes.

The tall and terrific men from the Blue Grass country walloped St. John's, 59 to 43. Hot-and-cold Illinois beat undermanned North Carolina State, 84 to 70.

The next regularly scheduled meeting is April 18 at 7:30 p.m. at the same place.

## Frank Boucher Keeps His Word

NEW YORK, March 23.—(INS)—Frank Boucher still has his job today—even though he's a man of his word.

Last Dec. 7 Boucher promised to resign as manager of the New York Rangers if they failed to win a berth in the National Hockey League's post-season Stanley Cup playoffs.

Wednesday night the Rangers lost their last chance at making the playoffs—and Boucher immediately tendered his resignation.

But Gen. John Reed Kilpatrick, president of the club and of Madison Square Garden, tore it up.

"The manager was by no means responsible," Kilpatrick said. "He stays."

## Georgetown U. Drops Football

WASHINGTON, March 23.—(INS)—Georgetown University, once one of the nation's top grid-iron powers, has dropped intercollegiate football, effective "at the close of the present academic year."

The Rev. Hunter Guthrie S. J., Georgetown president, said the decision was reached because "the uncertainty of the times adds new difficulties to those always present even under normal conditions."

Georgetown in pre-war years ranked with the top teams in the East. The 1938 eleven played in the Orange Bowl at Miami, losing to Mississippi, 14-7. Though football was de-emphasized at Georgetown under a postwar policy, the 1949 team was chosen to play in the Sun Bowl at El Paso, Tex.

Pirates Sign

Rookie Hurler

PITTSBURGH, March 23.—(INS)—The Pittsburgh Pirates today signed left-handed pitcher Scott Robert Keeny of Brownsville, Pa., and assigned him to Mayfield, Ky., of the Class D Kitty League.

The 19-year-old was voted the outstanding player in a Pirate try-out camp at Brownsville last summer, and received a trophy from the Brownsville Telegraph.

## Barons-Bears Turn In Wins

(By International News Service)

Cleveland's Barons and the Hershey Bears loom as top-heavy favorites today in their quest for early playoff victories in the American Hockey League's Calder Cup battle.

The forward line of Wally Hergesheimer-Fred Thuermer-Glenn Sommer carried the Barons to their second straight victory over the Buffalo Bisons last night in their best of seven series playoffs.

The trio accounted for five of Cleveland's seven goals while the Bisons came through with only two. The game was a rough one broken up frequently by fist fights and 18 penalties were called.

Hershey had to work overtime last night to top the Indianapolis Caps for the second time in a row, 4-3, in their best of five series playoffs.

With 63 seconds left in the regulation game, the bears tied the score and then won the game when Jerry Brown scored after 44 seconds of the overtime period.

## Mercantile League Meeting Tonight

There will be a meeting of team representatives of the Mercantile Softball league tonight at the Y. M. C. A. at eight o'clock. It is announced by Joe Howley.

Oklahoma City (SF)—Production of oil in the U. S. is about five million barrels a day.

## Hornets Get Verdict Today

### Governors Will Rule On Protest

PITTSBURGH, March 23.—(INS)—The board of governors of the American Hockey league meets in Pittsburgh today to rule on the action of President Maurice Podoloff in disqualifying the Pittsburgh Hornets from the post-season Calder Cup playoffs.

Podoloff ruled early this week that Pittsburgh, which finished third in the western division, could not participate in the playoffs because they had used center John McCormack in the last night matches. Podoloff ruled McCormack ineligible.

Playoffs Held Up

The Pittsburgh club appealed, claiming McCormack had been on the Pittsburgh roster before the February 15 deadline.

Should the board, composed of representatives of each team in the league, uphold Podoloff, fourth-place St. Louis will replace the Hornets in the playoffs.

The dispute has delayed the start of one segment of the playoffs. Springfield of the eastern division will meet either St. Louis or Pittsburgh—depending on the decision—Saturday night to open the series.

## Diamond Dust

(By International News Service)

Attention Boston Braves: Cincinnati's Ewell Blackwell, the peerless right-hander, is in the best shape of his career.

Somewhere is going to have to call this to the Braves' notice, because they obviously don't realize it. They hammered Blackwell for seven runs in the first six innings yesterday and won the exhibition fray 11 to 10 in ten innings. They scored four times in the last of the tenth after the Redlegs had scored three times in their half.

One-run victories were the rule rather than the exception on yesterday's grapefruit card. The St. Louis Cardinals edged the New York Giants 2 to 1 at St. Petersburg, the Washington Senators tripped Mel Parnell, Ellis Kinder and the Boston Red Sox 6 to 5 at Saratoga, and the Chicago Cubs dented the Cleveland Indians 8 to 7 at Los Angeles.

More marked were verdicts turned in by the Brooklyn Dodgers, who bombed the National league champion Phils 8 to 3 at Miami and the Pittsburgh Pirates, who butchered the St. Louis Browns 13 to 4 at San Bernardino, Calif.

Eleven of the Pirates' runs came in the second-inning bonanza. Against minor league opposition—namely, the Sacramento solons of the Pacific Coast league, the New York Yankees had no trouble at all, winning 11 to 0.

But another Pacific Coast club—the Hollywood Stars—flattened the grapefruit circuit's leading team, the Chicago White Sox 6 to 2 last night at Hollywood. It was the second defeat in 11 starts for the pale hose.

They are using Sugar Ray Robinson as the key man now in the middleweight division as they used him for the same purpose among the 147-pounders as champion. If he ever gets a permanently impaired hand or some other disability to shelve him, boxing will be in some fix.
